

Amendments to the Abstract:

Please add the following new Abstract of the Disclosure as a separate page after the claims:

ABSTRACT OF THE DISCLOSURE

A fully emptiable flexible tube wherein at least the skirt and the neck of the tube form a single-pieced unit. The wall is 0.30 1.20 mm thick, preferably 0.30 1.00 mm thick and is made of a material comprising at least one polymer from the polypropylene family and comprises a section modulus of 700 MPa maximum, preferably 500 MPa according to French standard NF EN ISO 178. The tubes can be used in the packaging of any type of product, especially pasty bodies in the field of cosmetics and pharmaceuticals.
